MorphOS Team will be an additional sponsor for Amiganoid Event on 17th of September 2011 in Essen/Germany. This is the good news, the bad news is, there probably won't be an AmigaOne X1000 on display. Photos will be uploaded from time to time during the show. So, check out [url]www.geobiz.de/amiganoid.html[/url] on a regular basis on that day, in order to keep uptodate ! Way better would be, to just join us, though.

However, here are the highlights:

- AROS running on ARM based Hardware
- AEROS: AROS distro using Linuxdrivers
- Emula: Emulation launcher for AROS
- AMC: Media Center application for AROS, AmigaOS (tm) and MorphOS
- IcAros: native AROS distribution
- AmigaOS 4.1 update 3 (e.g. on A1200)
- MorphOS (e.g. on PowerMac)
- iBatch live photo upload
- AROS USB Drive for only 3,50EUR (product image)
- AMC discount voucher worth 9,50EUR

Here is the location to be on Saturday:

Start: 11.00 am
Unperfekthaus
Room 154
Friedrich-Ebert-Str. 18
45127 Essen-Stadtmitte
[url]www.amiga-event.de[/url]
